SUBJECT: FROZEN FOOD FROM WARMBLOODED ANIMALS NOT AVAILBLE ANYMORE

DATE: 05.10.2020

From now on we don't offer frozen food of warm-blooded animals anymore.

This applies to the following products in blister: Mysis, Krill fijn, Lobstereggs, Red rotifer, Kokkels. This applies to the following products in bags of 500g: Daphnia red, Artemia, Artemia Golden Lake, Artemia red, Artemia garlic, Cyclops red, Krill fijn, Mysis.

Rats, mice and chicken we do offer as frozen food, because we can meet all registrations. Unfortunately, this came with a raise in the price.

Ab jetzt verkaufen wir kein gefrorenes Futter von warmblütigen Tieren mehr.

Das betrifft die folgende Produkte im Bliester: Mysis, Krill fijn, Lobstereggs, Red rotifer, Kokkels. This applies to the following products in bags of 500g: Daphnia red, Artemia, Artemia Golden Lake, Artemia red, Artemia garlic, Cyclops red, Krill fijn, Mysis.

Ratten, Mäuse und Kücken bieten wir weiterhin als gefroren Beutetiere an, da wir die strengen Regeln hierfür erfüllen können. Leider brachte dies eine Preiserhöhung mit sich.

Nous ne pourrons plus proposer de nourriture congelée en blister et en plaquette composés à base d'animaux à sang chaud.

Valable sur les produits en blister de 100gr suivants : Mysis, Krill fijn, Lobstereggs, Red rotifer, Kokkels. Et aussi valable sur les plaquettes de 500 gr suivantes: Daphnia red, Artemia, Artemia Golden Lake, Artemia red, Artemia garlic, Cyclops red, Krill fijn, Mysis.

En revanche Les rats, souris, poussins, qui répondent à toutes les règles, seront toujours disponible dans notre assortiment. Du à ces restrictions il seront un tout petit peu plus cher cette année.

Diepvriesvoer in blisters en plakken van warmbloedige dieren kunnen wij niet meer aanbieden.

Dit geldt voor de volgende producten in blister: Mysis, Krill fijn, Lobstereggs, Red rotifer, Kokkels. Dit geldt ook voor de volgende producten in plakken van 500g: Daphnia red, Artemia, Artemia Golden Lake, Artemia red, Artemia garlic, Cyclops red, Krill fijn, Mysis.

Ratten, muizen en kuikens voldoen wel aan alle regels en blijven in ons assortiment. Helaas zijn deze producten daarom dit jaar iets duurder geworden.

COMMISSION REGULATION (EU) No 142/2011 of 25 February 2011

implementing Regulation (EC) No 1069/2009 of the European Parliament and of the Council laying down health rules as regards animal by-products and derived products not intended for human consumption and implementing Council Directive 97/78/EC as regards certain samples and items exempt from veterinary checks at the border under that Directive

There is written on the page 83:

5. Random samples must be taken from dogchews and from processed petfood, other than from canned petfood and other than from such processed petfood which has been treated in accordance in point 3(b)(v), during production and/or during storage (before dispatch) to verify compliance with the following standards:

Salmonella: absence in 25 g, $n = 5$, $c = 0$, $m = 0$, $M = 0$.

Enterobacteriaceae: $n = 5$, $c = 2$, $m = 10$, $M = 300$ in 1 g

Legenda:

n = number of samples to be tested;

m = threshold value for the number of bacteria; the result shall be considered satisfactory if the number of bacteria in

all samples does not exceed m ;

M = maximum value for the number of bacteria; the result shall be considered unsatisfactory if the number of bacteria

in one or more samples is M or more; and

c = number of samples the bacterial count of which may be between m and M , the sample shall still be considered

acceptable if the bacterial count of the other samples is m or less.

This means that of the five samples to be examined, three samples can't have more than 10 enterobacteria per gram. That is clinically sterile. It is impossible for us to comply with the veterinary hygiene criteria of the hygiene regulations mentioned above. We will not more produce frozen fish Please find our actual price list 1 attached.
